### Not a drop of Alcohol

Doctors prescribe very little, if any, alcohol these days. They prefer strong tonics and alteratives. This is all in keeping with modern medical science. It explains why Ayer's Sarsaparilla is now made entirely free from alcohol. Ask your doctor. Follow his advice.

Unless there is daily action of the bow els, poisonous products are absorbed, oausing headache, biliousness, nausea, dyspepsia. We wish you would ask your doctor about correcting your constipation by taking laxative doses of Ayer's Pills.

The trial of Gardner was one of the most remarkable ever witnessed in the Federal Court of San Francisco cluding many ladies and many Kentuckians visiting the State, the story of the tragedy was unfolded amid breathless interest. The case was uprill for the attorneys from the Bluegrass State, as they had little time to prepare the defense, while United States District Attorney Robert Devlin and his assistants had worked out the details of the prosecution for many months, but they made a va iant fight with clear portrayal of the facts surrounding the killing, and were soon confronting the State from various coigns of vantage.

Young Gardner was denounced as a young hoodlum who had wantonly killed a harmless negro in a cowardly nanner, and his hanging was predicted as fit punishment.
